## TERMS AND CONDITIONS

Great Salt Bay Sanitary District

Page 1  
First Revision

The following Terms and Conditions made by the Great Salt Bay Sanitary District and filed with the Maine Public Utilities Commission constitutes a contract between the Customer and the Utility. The Customer agrees to adhere to these Terms and Conditions and to take water only for purposes stated in the application and at the established rates.

### DEFINITIONS

The word "Commission" refers to the Maine Public Utilities Commission.

The word "Utility" refers to the Great Salt Bay Sanitary District.

The word "Customer" means any person, firm, corporation or governmental division who has applied for and is granted service or who is responsible for payment of the service.

The word "Main" means a water pipe, owned, operated and maintained by the Utility, which is used to transmit or distribute water but is not a water Service Line.

The terms "Service Pipe" and "Service Line" mean the pipe running from the Main to the premises of the Customer.

**1. UTILITY SERVICE AREA.** Pursuant to 2007 Private & Special Law, Chapter 38, enacted March 20, 2008; amending 1993 Private & Special Law, Chapter 85; the Utility is permitted to serve within the boundaries of the Towns of Nobleboro, Damariscotta, and Newcastle and the inhabitants therein.

**2. APPLICATION FOR SERVICE.** Pursuant to Chapter 620 of the Commission's Rules and Regulations, the owner or the owner's agent, or the occupant of the establishment to be served may apply for service on forms provided by the Utility. Any tenant may become a Customer if the tenant assumes responsibility for future service under the conditions set forth in Title 35-A MRSA §706(2), Chapter 660 of the Commission's Rules and Regulations and under Section 11 below. If a new service connection or other work on the establishment is required, the owner must authorize the Utility to enter the premises to do the necessary work.

**3. SEASONAL CUSTOMER.** A seasonal Customer regularly takes service for only a portion of the year from either a summer or year-round main. A seasonal Customer will be subject to the rules and charges of seasonal rates in effect. A Customer regularly vacating the premises for three months or less may elect in writing to be classified as an annual Customer subject to annual rules and charges.

**4. BILLING PROCEDURES.** Minimum meter charges, and water used in excess of the minimum for annual metered service shall be billed quarterly in arrears at the end of billing quarter. The Utility reserves the right to render bills monthly if it so desires.

Seasonal minimum meter charges will be billed immediately after the meter is set for the season or on July 1 of each year. Bills for water used in excess of the minimum shall be billed immediately after the final reading for the season. The Utility reserves the right to bill quarterly for excess water used by seasonal Customers.

**EFFECTIVE: 05/01/2012**

**DOCKET NUMBER: 2011-523**

**ALLAN H. RAY, CHAIRMAN**

## TERMS AND CONDITIONS

Great Salt Bay Sanitary District

Page 2  
First Revision

4. **BILLING PROCEDURES (continued)**. Public fire protection charges will be billed in advance on a monthly basis. Private fire protection charges will be billed in advance each year on an annual basis. The Utility reserves the right to bill fire protection monthly, quarterly, or annually, if it so desires.

Bills may be paid by any Utility-approved payment method, including but not limited to by mail or in person, and must be received at the offices of the Utility or at any designated collection station. Failure of the Customer to receive his/her bill does not relieve him/her of the obligation of its payment nor for the consequences of non-payment.

5. **CREDIT AND COLLECTION PROCEDURES**. All credit and collection procedures for both residential and nonresidential Customers will be based upon Chapter 660 and Chapter 870 of the Commission's Rules and Regulations. The Utility may demand a deposit from a Customer as permitted by Chapter 660. Pursuant to Chapter 870, the interest rate on Customer deposits shall be the rate set from time to time by the Commission.

6. **TERMS OF PAYMENT**. Customers are legally obligated to pay for the services they receive. Bills are payable upon being issued. Failure of the Customer to receive his/her bill does not relieve him/her of the obligation of payment for services received nor for the consequences of non-payment. The due date for payment, in order to avoid the incurrence of late fees or the initiation of collection action will be no less than 25 days after the bill is mailed or hand delivered. The late payment charge for overdue bills will be no more than the maximum amount allowed under Chapter 870 of the Commission's Rules and Regulations, to be determined annually.

7. **CHARGE FOR RETURNED CHECKS**. As provided in Chapter 870 of the Commission's Rules and Regulations, the Utility may charge the greater of **\$5.00** per account to which the check is applied or the amount the bank charges the Utility, not to exceed **\$15.00** for each check returned by a bank. If the Utility charges more than **\$5.00**, the Utility shall furnish the customer with proof of the bank charge.

8. **CHARGES FOR ESTABLISHMENT OF SERVICE**. The Utility will charge **\$10.00** to establish water service if it is not necessary for the Utility to visit the premises to connect the service. If it is necessary for the Utility to visit the premises to connect the service, the Utility will charge **\$45.00** during the normal business hours of **7:00 a.m. to 3:00 p.m.**, Monday through Friday. During holidays and other than normal business hours, the charge will be **\$111.00**.

9. **CHARGES FOR RESTORATION/RECONNECTION OF SERVICE**. The Utility will charge a Customer a reconnection fee for restoration of service at the Customer's premises, if service was disconnected for any reason allowable under Chapter 660 of the Commission's Rules and Regulations and/or under these Terms and Conditions, including but not limited to at the Customer's request. The charge will be **\$45.00** during the normal business hours of **7:00 a.m. to 3:00 p.m.**, Monday through Friday. During holidays and other than normal business hours, the charge will be **\$111.00**.

**EFFECTIVE: 05/01/2012**

**DOCKET NUMBER: 2011-523**

**ALLAN H. RAY, CHAIRMAN**

## TERMS AND CONDITIONS

Great Salt Bay Sanitary District

Page 3  
First Revision

**10. COLLECTION TRIP FEE.** If Utility personnel visit the Customer's premises to disconnect service for non-payment and in lieu of actual disconnection the Customer pays or makes a payment arrangement for the entire past due balance, the Utility will charge a collection fee of **\$30.00**, as permitted in Chapter 660 of the Commission's Rules and Regulations.

**11. DISCONNECTION OF LEASED OR RENTED PROPERTY.** Before disconnecting a leased or rented residential property, the Utility shall comply with the notice requirements contained in Chapter 660 of the Commission's Rules and Regulations, and must offer the tenant the right to take responsibility for future payments.

**Leased or Rented Single-meter, Multi-unit Residential Property:** Pursuant to Chapter 660, in addition to the above, before disconnecting a leased or rented single-meter, multi-unit residential property, the Utility shall:

- a. Apply any existing deposit to the current account balance, and
- b. Assess, against the landlord, a collection fee of **\$107.00** in addition to any applicable reconnection fee set forth in Section 9 of these Terms and Conditions.

At its discretion, the Utility may separately meter or cause to be separately metered, at the landlord's expense, each dwelling unit within the property.

**12. CHARGES FOR REMOVAL OF SNOW, ICE, OR OTHER OBSTACLES DURING DISCONNECTIONS REQUESTED BY THE CUSTOMER.** The Customer will be responsible for clearing snow, ice, or any obstacles to the shut-off valve and/or meter when requesting a disconnection. If the Customer does not fulfill this responsibility and the Utility must clear the area to perform the requested disconnection, the Utility will charge the Customer at the following rates per trip: **\$45.00** per man-hour during the normal business hours of **7:00 a.m. to 3:00 p.m.**, Monday through Friday. During holidays and outside normal business hours, the charge will be a two hour minimum of **\$111.00** per man with each hour above the minimum charged at the rate of **\$54.00**. In all cases, the Customer will be billed for the cost of equipment rental, if applicable. If the disconnection request relates to a trip for the repair or replacement of a damaged meter, the equipment fees and total labor hours incurred for removal services in this section will be combined with the totals in Section 30D and calculated together.

**13. AFTER HOURS SERVICE CALLS NOT OTHERWISE LISTED.** After hours service calls not otherwise listed in these Terms and Conditions, including but not limited to call-out for an emergency disconnection at the Customer's request, will be charged at the rates for other than normal business hours, listed in Section 12 and Section 30D of these Terms and Conditions. When the trip is combined with the repair or replacement of a damaged water meter or other equipment repair at the Customer's premises, the call-out fee in this section will be waived to prevent a duplicate charge.

## TERMS AND CONDITIONS

Great Salt Bay Sanitary District

Page 4  
First Revision

**14. DISCONNECTION PROCESS FOR OVERDUE COMBINED WATER AND SEWER BALANCES.** Pursuant to Title 35-A MRSA §6111-C and Chapter 660 of the Commission's Rules and Regulations (Chapter 660), the Utility may disconnect water service to Customers receiving sewer service for non-payment of an undisputed balance, if the Total Amount Overdue is more than \$100.00 or over ninety days old, or if the Utility bills 4 times a year or less, unless the limitation in Section 14.5 is applicable.

### **14.1 Definitions.**

**Total Account Balance** means the total water and sewer amount owed by a Customer that has been properly billed.

**Total Amount Overdue** means the total water and sewer amount billed to a Customer that has not been paid by the due date of the bill or by a date otherwise agreed upon by the Utility and the Customer. Disputed amounts and fees and charges for estimated sewer service usage will not be included in the Total Amount Overdue.

**14.2 Billing.** Bills for the Utility shall be issued in accordance with Chapter 660 and with Section 4 of these Terms and Conditions.

**14.3 Disconnection and Reconnection.** A 14 day disconnection notice shall be issued when a Customer does not pay or make a payment arrangement on an undisputed balance, and the Total Amount Overdue is consistent with the requirement in Chapter 660.

**14.4 Collection Action.** Subsequent collection actions, including disconnection and reconnection, shall be in accordance with Chapter 660 and with these Terms and Conditions.

**14.5 Limitation for Multiunit Rental Facilities of Greater than Two Units.** Pursuant to 35-A MRSA §6111-C, the Utility may not disconnect water service for non-payment of sewer service to a multiunit rental facility greater than two units, unless the owner of the facility occupies a unit that would be subject to the disconnection, or unless the Utility has a Charter provision enacted prior to August 1, 2010, establishing the authority for such disconnection.

**14.6 Payment Allocation.** Pursuant to Chapter 660, when a Utility receives a partial payment, the Utility must first apply the payment to the oldest basic service balance due, no matter if water or sewer, unless instructions from the Customer, a disputed bill, or a payment arrangement requires otherwise. After all basic service balances due have been paid, unused payment amounts may be applied to non-basic service, unless otherwise stipulated.

**14.7 Payment Arrangement.** The Utility shall continue to serve a Customer who cannot pay the Total Account Balance, provided satisfactory payment arrangements are made in accordance with Chapter 660 and with these Terms and Conditions.

**14.8 Dispute Resolution.** The Utility shall resolve disputes, if applicable, in accordance with Chapter 660.

**EFFECTIVE: 05/01/2012**

**DOCKET NUMBER: 2011-523**

**ALLAN H. RAY, CHAIRMAN**

## TERMS AND CONDITIONS

### **14. DISCONNECTION PROCESS FOR OVERDUE COMBINED WATER AND SEWER BALANCES (continued).**

**14.9 Annual Filings.** The Utility shall annually file a disconnection report with the Commission as specified in Title 35-A MRSA §6111-C and in Chapter 660.

**14.10 Assistance Programs.** Pursuant to Title 35-A MRSA §6111-C and to Chapter 660, the Utility shall provide financial assistance information to Customers who are in imminent threat of disconnection, including but not limited to 2-1-1, the Department of Health and Human Services, the Community Action Agencies, and local Town or City Government.

**15. ABATEMENT POLICY.** The Utility will abate water for a residential Customer for an out of the ordinary event under the below-listed conditions. It is solely the decision of the Utility as to whether these conditions have been met:

- A leak or break occurred at the Customer's premises not resulting from Customer negligence; or an unusual volume of water was used, due to hydrant flushing or other dirty water issue; and
- In the event of a leak or break, the problem was repaired or the water was shut off while awaiting repair within a reasonable time; and
- The Customer had an account at this location for at least one year prior to the request.

The Customer must request the abatement from the Utility office. If granted, the Utility will compare the water usage in question above the minimum to the Customer's average water usage above the minimum for the four most recent billing periods prior to the one in question. The abatement will be 50% of the cost of the difference, calculated at the rates in the abated bill. Subsequent abatements to the same Customer will be granted only for dissimilar occurrences.

**16. SERVICE INTERRUPTION.** As specified in Chapter 660 of the Commission's Rules and Regulations, the Utility will provide reasonable notice of any planned shut-off to affected Customers. If the interruption is expected to last more than 5 hours or to affect more than 10 Customers or a single commercial Customer on a dedicated line, notice will be given at least twenty-four hours in advance of the interruption of service. The Utility will notify the Customers when practicable of the cause and duration of any unplanned shut-off. Pursuant to Chapter 620, if a Customer requests, the Utility will make a pro rata reduction in the Customer's minimum bill if service is interrupted for longer than forty-eight hours and the interruption is not due to negligence or improper care of equipment by the Customer.

**17. MAINTENANCE OF PLUMBING.** Pursuant to Chapter 620 of the Commission's Rules and Regulations, a Customer must maintain the plumbing and fixtures within his/her own premises in good repair and protect them from freezing or from heat damage. If damage does occur, the Customer is liable for any expenses incurred. A leak or break that is considered a threat to the integrity of the system will be cause for immediate disconnection of the Customer. If a leak is discovered that is not considered an immediate danger to the system, but may be a long term or cumulative danger, the Customer will be notified in writing by the Utility and will be given 30 days to repair the leak. If the repair is not completed by that time, the Customer will be subject to a fourteen-day disconnection notice, pursuant to Chapter 660.

**EFFECTIVE: 05/01/2012**

**DOCKET NUMBER: 2011-523**

**ALLAN H. RAY, CHAIRMAN**

## TERMS AND CONDITIONS

Great Salt Bay Sanitary District

Page 6  
First Revision

**18. UNAUTHORIZED USE OF WATER.** No Customer shall supply water to another nor use it for any purposes not mentioned in his/her application without Utility approval. No Customer or his agent shall obtain water from any hydrant or other fixture of the Utility without the previous consent of the Utility. No Customer or his agent shall bypass any meter, nor restore service without Utility authorization, nor unreasonably interfere with Utility service nor otherwise take action to prevent the proper metering of water consumed by the Customer. In the event of the discovery of such unauthorized use of water, the Customer shall be immediately disconnected, pursuant to Chapter 660. In addition, the Utility shall be entitled to bill and recover from the Customer or responsible person the cost of the estimated amount of water consumed, based on the Utility's approved rates, plus interest at an annual rate of 5%. Where the unauthorized use of water has occurred, the Utility may also assess the Customer or responsible person a fee of **\$45.00 per hour**, with a minimum of one hour, for each service visit to the Customer's premises necessary to investigate and address the unauthorized use of water, including removing the meter bypass, taking measures to prevent further diversion of water, and verifying that corrective measures have been taken and maintained. For service visits that occur during other than normal business hours, the fee will be **\$54.00 per hour** with a minimum charge of **\$100.00**. In no case shall the total of such hourly fees exceed **\$100.00**. In addition, pursuant to Title 35-A MRSA §2706 as amended or replaced, the Customer or person responsible for the unauthorized use may be liable in a civil action to the Utility for all other reasonable costs to the Utility, including attorney's fees, costs of undertaking and completing the investigation resulting in the determination of liability, and for a civil penalty not to exceed twenty five hundred dollars (\$2,500.00), due and payable to the Utility for each violation.

**19. NO TAMPERING WITH UTILITY PROPERTY.** No person may tamper with Utility property. No valve, valve sealing mechanism, meter, shutoff, hydrant or standpipe that is the property of the Utility shall be opened or closed or otherwise operated, modified, or removed by other than persons authorized by the Utility. Tampering will subject a Customer or other responsible party to the same charges and actions outlined in Section 18, entitled *Unauthorized Use of Water*. In addition, in the event of such tampering, the responsible party may be subject to a civil action, pursuant to Title 35-A MRSA §2707, as amended or replaced.

**20. ACCESS TO PREMISES.** Pursuant to Chapter 620 of the Commission's Rules and Regulations, as a condition of service, Customers shall provide access for Utility employees with proper identification to all premises supplied with water, at all reasonable hours, to permit the inspection of plumbing and fixtures; to set, remove or read meters; to ascertain the amount of water used and manner of use; and to enforce these Terms and Conditions.

**21. LIABILITY.** The Utility will only be liable for any damages arising from claims to the extent liability is expressly provided in the Maine Tort Claims Act, as set forth in Title 14 MRSA, Chapter 741. The Utility will not be responsible for any damages caused by discolored water, and makes no representations or warranties, expressed or implied, about the suitability of any water provided by the Utility for any particular purpose.

**EFFECTIVE: 05/01/2012**

**DOCKET NUMBER: 2011-523**

**ALLAN H. RAY, CHAIRMAN**

## TERMS AND CONDITIONS

Great Salt Bay Sanitary District

Page 7  
First Revision

**22. ISOLATION VALVES.** Every service must be provided with operable isolation valves, with one valve prior to and one valve after the meter. The valves must be located inside the building near the service entrance, easily accessible, and protected from damage, including, but not limited to, freezing and heat damage. All plumbing must be installed to prevent back-siphonage and to permit draining whenever necessary. The isolation valves shall be owned and maintained by the Customer.

**23. CROSS CONNECTIONS.** Pursuant to Chapter 620 of the Commission's Rules and Regulations, no cross connection between the public water supply system and any other supply will be allowed unless properly protected, based upon the Maine Cross Connection Control Rules and the Maine Internal Plumbing Code. No new cross connection may be installed without the express, written approval of the Utility. In addition, no connection will be permitted capable of causing back flow, including back siphonage or back pressure, between the public water supply system and any plumbing fixture, device or appliance, or between any waste outlet or pipe having direct connection to waste drains. If the owner of such a connection fails or refuses to break or properly protect the connection within a time limit specified by the Utility, the Utility may disconnect the service according to Chapter 660 of the Commission's Rules and Regulations. The Utility's Cross Connection Control Program is on file at the Utility office.

**24. BACKFLOW-PREVENTION DEVICE TESTING.** Customers with testable backflow devices are responsible for completing device testing according to the Utility schedule, available in the Utility office. The Customer must select a certified professional to comply with this requirement, and will pay the charges for the testing and for any necessary repairs directly to the contractor. Upon completion, the Customer must send the Utility a copy of each signed certified test. In the event that a Customer does not comply with the testing requirement or does not make repairs necessary to maintain full functionality of the device, the water service will be disconnected as a dangerous condition, pursuant to the Utility's Cross Connection Control Program and to Chapter 660 of the Commission's Rules and Regulations.

**25. FLUCTUATION OF PRESSURES BY CUSTOMER'S APPARATUS.** Pursuant to Chapter 620 of the Commission's Rules and Regulations, as a condition of service, Customers may not install or use any device that will affect the Utility's pressure or water quality without prior Utility written permission.

**26. SAFEGUARDING DIRECT PRESSURE WATER DEVICES AND SYSTEMS SUPPLIED BY AUTOMATIC FEED VALVES.** Pursuant to Chapter 620 of the Commission's Rules and Regulations, as a condition of service, Customers must install vacuum, temperature and pressure relief valves or cutouts to prevent damage to a direct pressure water device or secondary system supplied by an automatic feed valve.

**27. JOINT USE OF SERVICE PIPE TRENCH.** Pursuant to Chapter 620 of the Commission's Rules and Regulations, normally, water Service Pipes will not be placed in the same trench with other Utility facilities. Where possible, a horizontal separation of ten feet will be provided. Where extenuating, unusual or special circumstances are encountered, a lesser separation of joint use of trench may be allowed if all parties agree, provided that the installation complies with all applicable laws, rules and regulations.

**EFFECTIVE: 05/01/2012**

**DOCKET NUMBER: 2011-523**

**ALLAN H. RAY, CHAIRMAN**

## TERMS AND CONDITIONS

Great Salt Bay Sanitary District

Page 8  
First Revision

**28. CONSERVATION.** Pursuant to Chapter 620 of the Commission's Rules and Regulations, when necessary to conserve the water supply or in the event of an emergency, the Utility may restrict or prohibit waste or improper usage for all Customers, including but not limited to, the use of hoses and lawn sprinklers. Under these conditions, the Utility will decide what constitutes waste and improper usage to protect the health and safety of the water system.

**29. UTILITY JOBBING.** A Customer must complete a written application before a Utility will provide unregulated Utility service. As permitted in Chapter 620 of the Commission's Rules and Regulations, a Customer must pay a deposit equal to the Utility's written estimate. Unless the work is done on a flat rate basis, the Utility will return any excess deposit upon completion. If the final cost exceeds the deposit, the Customer must pay the additional amount upon completion.

**30. METERING, NEW SERVICE LINE, AND MAIN EXTENSION POLICIES.**

**A. Separate Metering of Buildings or Mobile Homes.** No Customer shall supply water to another, nor use it for purposes not mentioned in his/her application without prior written Utility approval. At its discretion, the Utility reserves the right to require separate piping and a separate meter and shut-off for each building or mobile home as a condition of service.

**B. Metering of Multi-Unit Premises.** Except as provided in Chapter 660 of the Commission's Rules and Regulations, where there is more than one occupant of a building supplied with water, the Utility may require the owner to arrange the plumbing to permit separate connections with shutoffs and meters in locations acceptable to the Utility for each place of business or abode. In the case of a condominium, each unit owner may be required to have a separate meter and shutoff in locations acceptable to the Utility.

**C. Submetering.** Additional or auxiliary meters for showing subdivision of water use must be furnished, installed, read and maintained at the Customer's own expense.

**D. Charges for Repair or Replacement of Damaged Water Meters and Other Utility Equipment.** Pursuant to Chapter 620 of the Commission's Rules and Regulations, the Utility may charge a Customer for costs incurred for the repair or replacement of meter(s) or other Utility equipment damaged due to Customer negligence or improper care. During the normal business hours of **7:00 a.m. to 3:00 p.m.**, Monday through Friday, the charge will be **\$45.00** per man-hour with a minimum charge of one hour; during holidays and outside normal business hours, there will be two-hour minimum charge of **\$111.00** per man, with each additional hour above the minimum charged at the rate of **\$54.00**. In all cases, the Customer will be billed for the cost of the necessary replacement parts, including the cost of the meter. As specified in Section 12 of these Terms and Conditions, if snow, ice or other obstacles must be removed to complete the requested repair, total hours and equipment fees for the removal service will be added to the totals for this section and calculated together.

**EFFECTIVE: 05/01/2012**

**DOCKET NUMBER: 2011-523**

**ALLAN H. RAY, CHAIRMAN**

## TERMS AND CONDITIONS

### **30. METERING, NEW SERVICE LINE, AND MAIN EXTENSION POLICIES (continued).**

E. **By-Pass Valve.** At its discretion, the Utility may require a Customer to install a bypass valve at the Customer's expense for meters 1.5 inch or larger. A Customer requesting a by-pass valve shall file an application with the Utility for approval prior to the installation of the valve. All by-pass valves, whether requested by the Utility or the Customer, shall be installed, owned, and maintained by the Customer. A by-pass valve must be sealed shut by Utility personnel, and may only be operated with the prior consent of the Utility. In the event that any by-pass valve is unsealed and/or operated without the prior consent of the Utility, the Utility may require removal of the valve at the Customer's expense.

F. **Meter Pits.** As permitted in Chapter 620 of the Commission's Rules and Regulations, the Utility reserves the right to require a meter pit at the Customer's expense under the following circumstances:

- The service is connected to a mobile home or a building without a basement; or
- The Customer does not provide a clean, warm, dry and accessible location for the meter and its appurtenances; or
- The length of the Service Pipe is 200 feet or greater; or
- The Customer's portion of the Service Pipe has been constructed of inferior materials or otherwise makes leaks or failure a likely occurrence; or
- The service passes over land belonging to another party. In this case, the Utility will require a deeded right of way.

Prior to installation of the proposed meter pit, the design must be submitted to the Utility for approval. Written approval or rejection of the proposed design shall be provided by the Utility within ten business days. All work and materials must comply with the Utility's approved standards and specifications, available in the Utility office.

A Customer may select the contractor of its choice for the installation and will pay the contractor directly. If the Utility is selected, the work will be done as jobbing, as detailed in Section 29 of these Terms and Conditions. All meter pits shall be inspected by the Utility's representative during the normal business hours of **7:00 a.m. to 3:00 p.m.**, Monday through Friday, for adherence to design specifications and workmanship, prior to the installation of the meter. The Utility reserves the right to require work to be redone if the standards and specifications are not met. The initial inspection will be at no charge to the Customer. If a follow-up inspection is required due to inadequate preparation by the Customer or contractor, or non-adherence to the approved design and material requirements, the Utility rate will be **\$45.00** per hour, with a minimum charge of one hour per necessary inspection.

**EFFECTIVE: 05/01/2012**

**DOCKET NUMBER: 2011-523**

**ALLAN H. RAY, CHAIRMAN**

## TERMS AND CONDITIONS

### 30. METERING, NEW SERVICE LINE, AND MAIN EXTENSION POLICIES (continued).

**G. Meter Testing.** The Utility will test its water meters according to the schedule and standards in Chapter 620 of the Commission's Rules and Regulations. Upon Customer request, the Utility will test the Customer's water meter at no charge in the presence of the Customer or representative, unless the Customer requests more than one test in an 18-month period. If the Customer requests a test more frequently, the Utility may require the Customer to pay a deposit to cover the cost of the test. If a meter tested at the Customer's request does not conform to standards, the Customer's deposit will be refunded and the Utility will adjust the Customer's bill according to the provisions of Chapter 620. If the meter conforms to standards, the Utility may keep the Customer's deposit and continue to use the meter at the Customer's premises.

**H. Winter Construction.** No new service or extension of Mains will be installed for the convenience of a Customer during winter conditions that increases the cost of the work for the Utility, unless the Customer assumes all extra expense over ordinary construction costs.

**I. Extensions of Mains.** All water Main extensions shall be installed at the Customers expense, as permitted in 35-A MRSA §6106. Procedures related to the application and installation, as well as ownership and maintenance of the Main after installation, shall be in compliance with Chapter 650 of the Commission's Rules and Regulations. The applicant must complete a Utility-provided application for the work and a financial agreement taking responsibility for all costs. The Utility shall either provide the plan or preapprove the applicant's plan, as specified in Chapter 650. If the latter, the plan must be in the Utility office two weeks in advance of requested approval date.

The applicant will be responsible for contracting a Utility-approved professional for the entire installation, and all costs shall be paid directly to the contractor. The work must be completed to applicable State and local requirements and to Utility work standards and material specifications, which will be provided to the applicant and the contractor. The contractor may also be required to purchase materials from the Utility if no alternative, reliable source is available that ensures compatibility with the Utility's pipe and equipment. Prior to the initiation of work, the Utility will create a written estimate for the applicant detailing all Utility-provided services and materials, and a deposit equal to 100% of the estimate will be collected. A final reconciliation of the job costs will be prepared upon completion, and if applicable, the Utility will return any excess deposit at that time. If the actual cost exceeds the deposit, the applicant must pay the additional amount, as per the written agreement between the Utility and the applicant, prior to turning on the service.

In order to manage and inspect the process, a Utility representative will be present intermittently during the installation at no charge to the applicant. The Utility may stop the installation at any time, and require the work to be redone at the applicant's expense, if it discovers work irregularities or a lack of adherence to the preapproved plan or to the standards and specifications.

## TERMS AND CONDITIONS

### **30. METERING, NEW SERVICE LINE, AND MAIN EXTENSION POLICIES.**

**J. New Service Lines and Meters.** As permitted in 35-A MRSA §6106, each applicant for a new water service will be responsible for the costs of the entire Service Line. Ownership and maintenance of the Service Line and meter after installation will be governed by Chapter 620 of the Commission's Rules and Regulations.

The Customer will be responsible for obtaining the Utility's written approval for the installation prior to initiation of the work, and for contracting with Utility-approved professionals for the installation from the shut-off into the building. All contractor charges will be paid by the Customer directly to the contractor.

The Service Line location will be set or reviewed by the Utility, and must be installed to Utility standards and specifications, available at the Utility office. Only Utility approved materials may be used. The Utility reserves the right to inspect the installation and must be notified before they are buried or enclosed. The first inspection will be at no charge to the Customer. If a site visit has been scheduled, and if the Utility must later return to the premises due to inadequate preparation by the Customer or the contractor, or lack of adherence to the material or work specifications, the Customer will be responsible for the cost of the extra visit(s) at a rate of **\$45.00** per hour, with a minimum charge of one hour per inspection.

The Utility will be responsible for installing the meter and the Service Line from the Main to the shut-off, including tapping the Main and piping across the road, if necessary. This work will be available during the regular business hours of **7:00 a.m. to 3:00 p.m.**, Monday through Friday. At its discretion, the Utility may subcontract out any part of the installation.

The costs to the Customer for the above-described Utility/subcontractor work on the installation will be calculated, as follows:

- A charge of **\$45.00** per man-hour for installing the Service Line from the Main to the shut-off, for tapping the Main, and for installing the meter.
- Costs of any and all inspections after the first, as described above.
- Costs of Utility-provided equipment rental, materials, and parts, including the meter.
- Total costs, as billed to the Utility, for subcontractors deemed necessary by the Utility. This includes any and all costs for piping across the road as required, whether boring or opening the road, closing the road in compliance with State and local requirements, acquiring permits, flagging, and additional services, depending on the situation.

Prior to the onset of the work, a written estimate will be prepared for the Customer, detailing the Utility-provided labor, materials, and equipment rental, and a deposit equal to the estimate will be collected. A final reconciliation of job costs will be done upon completion. If applicable, the Utility will return any excess deposit at that time. If the actual cost exceeds the deposit, the Customer must pay the additional amount as a condition of service, as per the agreement with the Utility.

## TERMS AND CONDITIONS

Great Salt Bay Sanitary District

Page 12  
Original

**31. FIRE HYDRANTS.** Fire hydrants may not be used for any purpose other than to extinguish fires unless prior permission is given by the Utility. In the event of fire extinguishment, the fire department will notify the Utility of hydrant use within a reasonable time of declaring the fire under control to allow for proper maintenance. Fire hydrants must not be opened by any person other than an agent of the Utility or a duly authorized representative of the municipality or the owner. The Utility reserves the right to be present for any opening of a fire hydrant other than for fire extinguishment, and must be given timely notice so a representative of the Utility can be available to witness the opening.

**32. PRIVATE FIRE PROTECTION.** Customers requiring private fire protection must contact the Utility to determine the availability of fire service at their location. If available, the fire service line will be installed at the Customer's expense within the bounds of the public way or right of way; after installation, the line will be owned and maintained in the public way or right of way by the Utility, as specified in Chapter 640 of the Commission's Rules and Regulations. The Utility does not guarantee any quantity of water or pressure available through a fire protection service. The Utility may require the owner, as a condition of service, to determine, from time to time, the adequacy of supply through the fire service by conducting tests of his private system. If so required, sufficient notice must be given to the Utility so a representative of the Utility can be present to observe the test. The owner may also be required to perform certain additional tests and maintenance on the system, in order to be consistent with the health or safety standards of the Utility and the water system.
